### **Guest Speakers**

Daren Mueller, Iowa State University  
Michelle Erickson, Erickson Farm  
Mike Choriki, Crop Consultant, Billings  
Arash Rashed, Assistant Professor of Entomology,  
University of Idaho

### **PROVIDED**

The CPMS sessions will present accurate information designed to update participants on areas of new and proven agricultural techniques, and emphasize sustainable management systems. Participants will learn to recognize the damage caused by pests and to integrate management methods in decision making. Limited enrollment ensures participants will interact closely with specialists. Morning and afternoon coffee & snacks will be provided along with a pizza dinner at Columbo's. Participants are on their own for lunch. A variety of resource materials will be provided by the lecturers.
